

Hope Centers for Children of Africa (HCCA)

HCCA/Uganda

Base of Operation: Luwero, Uganda

Goals for 2017

- Increase farm production.
- Increase the number of participants in the micro grant program
- Drill a well on the farmland to ensure a plentiful supply of water
- Community well at entrance to school malfunctioning

.Accomplishments/Results:

- Clearing of brush and scrub trees on farmland and leveling of ant hills provided an additional 2.5 acres of tillable land. Paul M. was hired. His job description includes; Evangelism, Farm Development, and driver. Paul comes with experience in each of the first two areas.
- Seven women were added to the first group of participants in the micro grant program. Twenty-five women formed the 2nd set of participants in the micro grant program. The additional participants received the necessary training in the use of micro grants
- A new well was drilled on the farm
- The well at the entrance of the school was repaired. The PVC pipes were replaced with stainless steel.
- Paul M. was hired. His job description includes; Evangelism, Farm Development, and driver. Paul comes with experience in each of the first two areas.

Base of Operation: Bogoro, DR Congo

Goals for 2017

- Increase safety and effectiveness of work performance by purchasing an SUV. Currently their only mode of transportation is by motorcycle which becomes unsafe as they travel into the Blue Mountains
- Increase the number of orphans to the program

Accomplishments/Results

- Funds were available for the purchase of an SUV
- The team worked with the local council to identify those in most need and 100 children were enrolled in school by August 2017
